

Item Number	Fusion Fibre Storage Systems	List Price (EUR)
<h3>High Performance Video Editing SAN Server</h3> <p><b>More Video Bandwidth, More Users, SAN Server Built in</b></p> <p>Sonnet's Fusion™ RX1600Fibre™ set a new standard for video editing workgroup shared storage, delivering more streams to users than general purpose shared storage systems, and providing easy expandability. It's time to take a leap forward—Sonnet is proud to introduce the Fusion RX1600 V fibre™, which serves 65% more video bandwidth to more users. Fusion RX1600 V fibre is unprecedented in shared storage, supporting 4K workflow, providing an aggregate 1600MB/sec to up to 12 directly-connected Fibre users, and up to 600MB/sec to Gigabit Ethernet-connected users. Furthermore, Tiger Technology® metaSAN server software is built in—just connect metaSAN Fibre clients and begin working.</p> <p>This system also leverages ATTO Technologies' exclusive Advanced Data Streaming (ADS™) Technology to deliver improved stream counts. ADS provides controlled acceleration of data transfers, compensating for transfer speed peaks and drops to maintain a consistent data flow, allowing more streams without dropped frames for the bandwidth available.</p> <div style="display: flex; justify-content: space-around;"> <div style="text-align: center;"> <p><b>Higher Stream Counts</b></p> <div style="background-color: #4a7ebb; color: white; padding: 2px;">45 Streams</div> <p>Sonnet V fibre</p> <div style="background-color: #2e5496; color: white; padding: 2px;">14-20 Streams</div> <p>General Purpose Shared Storage</p> </div> <div style="text-align: center;"> <p><b>Higher Bandwidth</b></p> <div style="background-color: #4a7ebb; color: white; padding: 2px;">1650 MB/s Read</div> <p>Sonnet V fibre</p> <div style="background-color: #2e5496; color: white; padding: 2px;">740 MB/s Read</div> <p>General Purpose Shared Storage</p> </div> </div> <div style="text-align: center; margin-top: 10px;"> </div> <div style="text-align: right; margin-top: 10px;"> </div>		
<p><b>SON-RX1600VFIBRE NEW</b></p>	<p><b>Sonnet High Performance Video Editing SAN Server</b></p> <p>Sonnet's Fusion RX1600Fibre set a new standard for video editing workgroup shared storage, delivering more streams to users than general purpose shared storage systems, and providing easy expandability. Item Number	Fusion Storage Systems	List Price (EUR)
SON-DX800R	<b>Sonnet FUSION DX800 RAID Desktop with Controller</b> Desktop 8-Drive SATA Storage System with Internal SAS Expander, removable Enterprise/RAID edition storage, up to 24 terabytes, with included PCIe RAID 0, 1, 4 (DV RAID), 5, 6, 10 controller. RAID 5 protected mode bandwidth: 870 MB/sec Fusion DX800 RAID (Desktop unit) inc PCIe RAID Controller Card 0TB Fusion DX800 RAID (Desktop unit) inc PCIe RAID Controller Card 24TB	€ 2,295 POA
SON-DX800RE	<b>Sonnet FUSION DX800 RAID Expansion (w/o Controller)</b> Expansion for DX800R. Each DX800RAID storage system features an internal SAS (Serial Attached SCSI) expander that enables you to connect additional DX800RAID enclosures in a daisy chain, no additional RAID controller card needed Fusion DX800 RAID Expansion Unit (W/O Controller) 0TB Fusion DX800 RAID Expansion Unit (W/O Controller) 24TB	€ 1,250 POA
SON-R800R	<b>Sonnet FUSION R800 RAID Desktop with Controller</b> Fusion R800R (Same Spec as DX800R, but rackmount version + No SAS Expander) -0TB	€ 2,195 TBA
SON-D800 Thunderbolt <b>NEW</b>	<b>Sonnet Fusion D800TBR5 Compact Professional Performance Raid - Coming Early 2012</b> 8-drive RAID 5 desktop storage system featuring Thunderbolt™ technology includes an internal RAID controller that supports RAID 5 for great performance and file protection in case of a single drive failure, RAID 1 for redundancy, RAID 0 for maximum performance, and JBOD for maximum flexibility. Fusion D800TBR5 delivers fantastic performance, achieving data transfers up to 800 MB/s read and 730 MB/s write. With a large cache and latency management technology, this system is fast enough to handle a single stream of uncompressed 10-bit 1080 4:4:4 HD, or multiple streams of ProRes 422, uncompressed 8-bit 1080 HD, DV, HDV, and DVCPRO video.	€ 2,195 TBA
SON-D400QR5	<b>Sonnet FUSION D400Q Quad Interface Desktop with RAID 5 Support</b> Desktop, 4-drive, RAID 0, 5 or JBOD Support, SATA-interface removable Enterprise/RAID edition storage, up to 12 terabytes, Quad interface: eSATA, FireWire 800, FireWire 400, USB 2.0 or use Tempo SATA E4P or Tempo SATA X4P host bus adapter cards for max performance. Built in RAID 5 Controller Max bandwidth: 225 MB/sec. Fusion D400Q Quad Interface 0TB Fusion D400Q Quad Interface 12TB	€ 550 POA
SON-R400QR5	<b>Sonnet FUSION R400Q Quad Interface Rackmount with RAID 5 Support</b> Rackmount version of above D400QR5 Fusion R400Q Quad Interface 0TB Fusion R400Q Quad Interface 12TB	€ 550 POA
SON-R400P	<b>Sonnet FUSION R400P 4 Bay SATA Storage System with Port Multiplier</b> Rackmount 4-drive SATA Storage System With Port Multiplier; Compatible With eSATA Host Controllers With Port Multiplier Support Fusion R400Q Quad Interface 0TB Fusion R400Q Quad Interface 8TB	€ 485 POA TBA
SON-E400 Thunderbolt™ <b>NEW</b>	<b>Sonnet Fusion E400TBR5 Compact High Performance Raid - Early 2012</b> 4-drive RAID 5 desktop storage system featuring Thunderbolt™ technology includes an internal RAID controller that supports RAID 5 for great performance and file protection in case of a single drive failure, RAID 0 for maximum performance, and JBOD for maximum flexibility. Drive configuration is managed through a simple-to-use application. Fusion E400TBR5 takes advantage of the huge bandwidth available through the Thunderbolt interface connection to deliver great I/O performance (up to 400 MB/s read and 340 MB/s write), nearly twice as fast as similar 4-drive storage systems using an eSATA interface	€ 485 POA TBA
Item	Thunderbolt™ Expansion & Adapters	List Price (EUR)
Echo Express - <b>NEW</b>	<b>Echo Express PCIe 2.0 Expansion Chassis - Expected Early 2012</b> Echo™ Express PCIe 2.0 Expansion Chassis with Thunderbolt™ Ports enable you to connect high-performance PCI Express® 2.0 adapter cards to any computer with a Thunderbolt port. Imagine using full-size professional video capture cards, 8Gb Fibre Channel cards, 10-Gigabit Ethernet cards, and RAID controller cards with your new MacBook® Pro. • Connect half-length (full-length XL model), double-width PCIe 2.0 adapter card to a computer with Thunderbolt. • 2GB/s PCIe 2.0 slot perfect for special-purpose PCIe cards for video capture, Fibre Channel, 10-Gigabit Ethernet, digital audio, RAID control, multiple screen video • Integrated 75W power supply (150W including one 75W PCIe power connector in XL model). • Two Thunderbolt Ports—Daisy chain up to six devices to a single port on the host computer.	TBA
SON-ECHOE34 - <b>NEW</b>	<b>Echo ExpressCard34 Thunderbolt Adapter - Available January 2012</b> Enables you to use ExpressCard/34 adapters with Thunderbolt technology-equipped computers Providing High-performance 10 Gb/s Thunderbolt technology, 5 Gb/s ExpressCard/34 2.0 interface (see website for list of compatible cards)	€ 119
Item	Universal Professional Media Reader / Writer	List Price (EUR)
SON-DIOUSB3 - <b>NEW</b>	<b>DIO Pro CompactFlash and SDXC USB 3.0 Media Reader - Now Shipping</b> Dual Format, High Speed USB3.0 Card reader - Transfers data from CF cards at up to 70 MB/s, SDXC and SDHC memory cards at full speed (limited by card)	€ 38
SON-QIO	<b>Sonnet Professional Universal Media Reader/Writer + 4 eSATA Ports</b> QIO reads & writes from just about any memory card inc P2, SxS, CF, SD, XD and more - at very high speed. Dual P2, SxS and CF slots enable efficient offload. Also includes 21-in-1 adapter to suit most popular memory cards. 4 eSATA connections allow dual F2 connection to easily copy files between them. Fusion QIO inc Sonnet Bus Extender PCIe Fusion QIO inc Sonnet Bus Extender ExpressCard/34	€ 795 € 795
SON-QIOMR <b>NEW</b>	Fusion QIO-MR Mobile Rack Version - <b>NEW Expected December 2011</b>	€ 795
SON-QIOE3-E34 <b>NEW</b>	Fusion QIO-E3 3x SxS, Media Reader E34 <b>NEW Expected December 2011</b>	€ 485
SON-QIOE3-PCIE <b>NEW</b>	Fusion QIO-E3 3x SxS Media Reader PCIe - <b>NEW Expected December 2011</b>	€ 485

SON-QIOCF4-PCIE <b>NEW</b>	Fusion QIO-E3 4x CF Media Reader PCIe - <b>NEW Expected January 2012</b>	€ 485
SON-QCBPCIE-1M	PCIe Bus Cable for QIO 1M	€ 38
SON-QCBPCIE-3M	PCIe Bus Cable for QIO 3M	€ 76

Item	Fusion Portable Storage Solutions	List Price (EUR)
<b>SON-F2</b> 	<b>Sonnet FUSION F2 Portable Storage System</b> Fusion F2 uses two eSATA connections to deliver the fastest performance yet (upto 190MB/sec read/w rite) from a 2-drive portable storage system, with data transfer rates up to twice as fast as FireWire®. By connecting Fusion F2 through a SATA host adapter like Sonnet's Tempo™ SATA Pro ExpressCard/34, or to Sonnet's Qio, your notebook's FireWire 800 port is left open allowing other products the dedicated use of FireWire bandwidth. Fusion F2 is cool, quiet, and energy-efficient. Side-by-side placement of its drives increases the metal case's cooling surface area, thereby eliminating the need for a fan, and allowing it to be bus-powered so it can be used even when no grid power is available.	
SON-F2640	Fusion F2 inc 640GB/5400rpm - <b>while stocks last (some ex demo models also available)</b>	€ 200
SON-F27200-1TB	Fusion F2 inc 1TB/7200rpm - <b>while stocks last</b>	€ 315
