

TP-200

The DataVideo TP-200 Teleprompter utilises the power and functionality of the Apple iPad™ & iPad2™ transforming it into a professional, fully-featured teleprompter

The fully customisable prompting screen display, together with ultra smooth text scrolling adapts to both landscape and portrait modes with mirrored or standard text alignments.

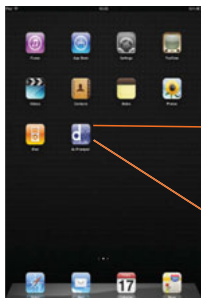

The DataVideo wired i-remote lets you control prompting speed of the script from up to 3 metres away giving you the script management needed for professional teleprompting.

The DataVideo TP-200 can be mounted either in the traditional way using the included camera and tripod support rails, hood and beam splitter glass, or under the lens for use with retro-reflective light rings such as DataVideo CKL-300

In addition, the DV Prompter software can drive external displays using a standard VGA or Composite video cables available for the Apple iPad™ & iPad2™

SOFTWARE APPLICATION & REMOTE CONTROL

The dv prompter application is available to download free from Apple™ App Store™.

Control speed of your prompting script, or jump between break marks, with the supplied i-remote wired controller.

Easy and quick overview of all your document scripts.

Fast Script Download to TP-200's software via simple email cut and paste text copying, with instant Script Editing and Timing – use DV Prompter's in-built text editor for those last minute changes to content and timing.

Change background colour, font type & size and many other features direct via the interface on the Apple™ iPad™ & iPad2™ on the fly.

FEATURES

- Simple software and wired remote allow users to produce professional results at low cost.
- Special 60/40 Glass allows the presenter to read the script and the camera to see the subject.
- Strong and rigid prompter rig fixes securely to any standard camera / tripod plate mount.
- Designed to allow stand alone, in front of camera or below lens prompting. Perfect for applications with DataVideo CKL-300 Dual Colour (Blue & Green) Chromakey Ring & 3 x Retro-reflective Screen.
- The black camera sock cloth is adjustable to adapt to a wide variety of cameras.
- Combination sleeve and bracket system allows simple but secure Apple™ iPad™ & iPad2™ installation.
- Quick and simple set rig assembly requires no special tooling.
- Three metre long wired remote control is perfect for self shoot projects.
- Designed to accommodate DataVideo's DN-60 Solid State CF Card Recorder.
